EQUIPMENT FOR BLASTING

Digital Slope Meter For Drilling Machines LGF. This equipment has the following benefits:

- Accurate borehole deviation
- Less positioning time
- More efficiency
- Could be adapted to any type of machine

TECHNICAL DATA	
Sensor	Dual Axis
Range	± 50°
Accuracy	± 0,25°
Resolution	0,1°
Power	12 VDC

Refer to the instruction manual for safety and operating mode.
The documentation described herein shall not be considered as contractual commitment.
